

Park Terrace Dental - one visit  
dentistry with Dr Damian Chung, a leader in  
the field of cosmetic ceramic dentistry.

Esthetic ceramic crowns or partial crowns in a single session.  
Ask me about CEREC.

# Advantages with CEREC.

- No unpleasant impression material
- No follow-up appointment
- No bothersome temporary prosthesis

# A dental prosthesis in just a single visit.

1

After your consultation, an intraoral camera captures the prepared tooth and the area to be treated.

# A dental prosthesis in just a single visit.

2

The dental prosthesis (ceramic crown, veneer or inlay) is then created as a 3D model on the computer.

# A dental prosthesis in just a single visit.

3

Afterwards, the restoration created on the computer is subsequently milled from an e.max ceramic block, in the shade chosen to compliment your teeth.

# A dental prosthesis in just a single visit.

4

Just a little while later, following milling, glazing and firing in our kiln, the finished ceramic restoration is inserted.

Are you interested? Then ask us about CEREC technology & the use of quality e.max ceramic.
